222

Code	Teeth Per Inch	Use
322 H	3	General
422 H	4	General/frozen
222	2	Boneless

Premium quality, precision tooth-set blade is designed to minimize resistance and bone drag-cuts faster, cooler, and straighter. Closely held tooth tolerances, strong matched welds, and uniform heat-treating eliminate scoring, reduce vibration, and provide consistent blade performance,

Thinner tooth-set reduces waste and bone dust by up to 30%. Heat treating process hardens each blade without discoloration. Sturdy blade maintains optimum cutting strength for dependable straight cutting. Cool and clean-cutting teeth provide extended blade life. Fewer blade changes, faster cutting, and better labor cost.
